

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

Contents:

1. **Stakeholders: Governments, in collaboration, where appropriate, with national and international organizations**
 - 1.1 **Integrating environment and development at the policy, planning and management levels**
 - 1.1.1 Activities
 - 1.1.1.1 Improving planning and management systems
 - 1.2 **Providing an effective legal and regulatory framework**
 - 1.2.1 Activities
 - 1.2.1.1 Making laws and regulations more effective
2. **Stakeholders: Governments, in cooperation, where appropriate, with international organizations**
 - 2.1 **Integrating environment and development at the policy, planning and management levels**
 - 2.1.1 Activities
 - 2.1.1.1 Adopting a national strategy for sustainable development
 - 2.1.2 Means of Implementation
 - 2.1.2.1 Strengthening national institutional capacity
3. **Stakeholders: Governments, in collaboration with the national and international scientific community and in cooperation with international organizations**
 - 3.1 **Integrating environment and development at the policy, planning and management levels**
 - 3.1.1 Means of Implementation
 - 3.1.1.1 Researching environment and development interactions
4. **Stakeholders: Governments, in cooperation, where appropriate, with national, regional or international organizations**
 - 4.1 **Integrating environment and development at the policy, planning and management levels**
 - 4.1.1 Means of Implementation
 - 4.1.1.1 Enhancing education and training
5. **Stakeholders: Governments, in cooperation with national institutions and groups, the media and the international community**
 - 5.1 **Integrating environment and development at the policy, planning and management levels**
 - 5.1.1 Means of Implementation
 - 5.1.1.1 Promoting public awareness
6. **Stakeholders: Governments and legislators**
 - 6.1 **Providing and effective legal and regulatory framework**
 - 6.1.1 Activities

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

6.1.1.1 Establishing judicial and administrative procedures

7. Stakeholder: Competent intergovernmental and non-governmental organizations

7.1 Providing and effective legal and regulatory framework

7.1.1 Activities

7.1.1.1 Providing legal reference and support services

8. Stakeholder: Competent international and academic institutions

8.1 Providing and effective legal and regulatory framework

8.1.1 Activities

8.1.1.1 Establishing judicial and administrative procedures

9. Stakeholder: Governments with assistance from international organizations and other countries

9.1 Providing and effective legal and regulatory framework

9.1.1 Activities

9.1.1.1 Developing effective national programmes for reviewing and enforcing compliance with national, state, provincial and local laws on environment and development

10. Stakeholder: Contracting parties to international agreements, in consultation with the appropriate secretariats of relevant international conventions

10.1 Providing and effective legal and regulatory framework

10.1.1 Activities

10.1.1.1 National monitoring of legal follow-up to international instruments

11. Stakeholder: Governments

11.1 Providing and effective legal and regulatory framework

11.1.1 Means of implementation

11.1.1.1 Scientific and technological means

11.1.1.2 Human resource development

11.1.1.3 Strengthening legal and institutional

11.1.2 Finance and cost evaluation

11.2 Integrating environment and development at the policy, planning and management levels

11.2.1 Finance and cost evaluation

11.2.2 Activities

11.2.1.1 Improving decision-making process

11.2.1.2 Data and information

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

11.2.3 Means of implementation

11.3 Making effective use of economic instruments and market and other incentives

11.3.1 Activities

11.3.1.1 Improving or reorienting Governmental policies

11.3.1.2 Creating an inventory of effective uses of economic instruments and market mechanisms

11.3.2 Finance and cost evaluation

11.4 Establishing systems for integrated environmental and economic accounting

11.4.1 Finance and cost evaluation

11.4.2 Activities

11.4.2.1 Establishing an assessment process

11.4.2.2 Strengthening data and information collection

11.4.3 Means of implementation

11.4.3.1 Strengthening institutions

11.4.3.2 Enhancing the use of information technology

12. Stakeholder: Governments in cooperation with business and industry

12.1 Making effective use of economic instruments and market and other incentives

12.1.1 Activities

12.1.1.1 Improving or reorienting Governmental policy

13. Stakeholder: Governments with the assistance of regional and international economic and environmental organizations and, as appropriate, non-governmental research institutes

13.1 Making effective use of economic instruments and market and other incentives

13.1.1 Activities

13.1.1.1 Taking account of the particular circumstances of developing countries and countries with economies in transition

13.1.1.2 Increasing understanding of the role of economic instruments and market mechanisms

13.1.1.3 Enhancing understanding of sustainable development economics

14. Stakeholder: Governments in cooperation with business, industry, large enterprises and transnational corporations, as well as other social groups

14.1 Making effective use of economic instruments and market and other incentives

14.1.1 Activities

14.1.1.1 Establishing a process for focusing on pricing

14.1.1.2 Enhancing understanding of sustainable development economics

15. Stakeholder: Higher learning institutions

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

15.1 Making effective use of economic instruments and market and other incentives

15.1.1 Activities

15.1.1.1 Enhancing understanding of sustainable development economics

16. Stakeholder: The Statistical Office of the United Nations Secretariat

16.1 Establishing systems for integrated environmental and economic accounting

16.1.1 Activities

16.1.1.1. Strengthening international cooperation

16.1.2 Means of implementation

16.1.2.1 Strengthening institutions

17. Stakeholder: Agencies dealing with national accounts, in close cooperation with environmental statistics and natural resource departments

17.1 Establishing systems for integrated environmental and economic accounting

17.1.1 Activities

17.1.1.1 Strengthening national accounting systems

18. Stakeholder: Statistical Commission

18.1 Establishing systems for integrated environmental and economic accounting

18.1.1 Activities

18.1.1.1 Establishing an assessment process

19. Stakeholder: The Statistical Office of the United Nations Secretariat, in close collaboration with relevant United Nations organizations

19.1 Establishing systems for integrated environmental and economic accounting

19.1.1 Activities

19.1.1.1 Strengthening technical cooperation

20. Stakeholder: Governments with the support of the international community

20.1 Establishing systems for integrated environmental and economic accounting

20.1.1 Means of implementation

20.1.1.1 Strengthening national capacity

21. Stakeholder: Organizations of the United Nations system and other relevant organizations

21.1.1 Activities

22. Stakeholder: Organizations and bodies of the United Nations system, in cooperation with Governments and, as appropriate, major

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

organizations

22.1.1 Activities

23. Stakeholder: The Statistics Division of the United Nations Secretariat, organizations of the United Nations system and other governmental organizations

23.1.1 Activities

24. Stakeholder: All organizations of the United Nations system, in cooperation with governments

24.1.1 Activities

25. Stakeholder: Interested Governments and relevant subregional, regional and other interested organizations

25.1.1 Activities

26. Stakeholder: The Statistical Division of the United Nations Secretariat, the Statistical Division of the United Nations Secretariat, organizations of the United Nations system and other intergovernmental organizations

26.1.1 Activities

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

1. Stakeholders: Governments, in collaboration, where appropriate, with national and international organizations

1.1 Integrating environment and development at the policy, planning and management levels

1.1.1 Activities

1.1.1.1 Improving planning and management systems

Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.5 (a)	Has the government (in collaboration, where appropriate, with national and international organizations) improved the use of data and information at all stages of planning and management, making systematic and simultaneous use of social, economic, developmental, ecological and environmental data?			
	Have analysis' stressed interactions and synergisms? Has a broad range of analytical methods been encouraged so as to provide various points of view?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.5 (b)	Has the government (in collaboration, where appropriate, with national and international organizations) adopted comprehensive analytical procedures for prior and simultaneous assessment of the impacts of decisions, including the impacts within and among the economic, social and environmental spheres?			
	Have these procedures been extended beyond the project level to policies and programmes? Has analysis included assessment of costs, benefits and risks?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.5 (c)	Has the government (in collaboration, where appropriate, with national and international organizations) adopted flexible and integrative planning approaches that allow the consideration of multiple goals and have you enabled adjustment of changing needs?			
	Has the government (in collaboration, where appropriate, with national and international organizations) adopted flexible and integrative planning approaches that allow integrated approaches at the ecosystem or watershed level?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

Agenda 21 Art 8.5 (d)	Has the government (in collaboration, where appropriate, with national and international organizations) adopted integrated management systems, particularly for the management of natural resources?	Women		
	Have traditional or indigenous methods been studied and considered wherever they have proved effective?			
	Have women's traditional roles been marginalized as a result of the introduction of new management systems?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.5 (e)	Has the government (in collaboration, where appropriate, with national and international organizations) adopted integrated approaches to sustainable development at the regional level, including transboundary areas, subject to the requirements of particular circumstances and needs?			
	Have instruments been regularly reviewed and adapted to ensure that they continue to be effective?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.5 (f)	Has the government (in collaboration, where appropriate, with national and international organizations) used policy instruments (legal/regulatory and economic) as a tool for planning and management, seeking incorporation of efficiency criteria in decisions?			
	Have instruments been regularly reviewed and adapted to ensure that they continue to be effective?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.5 (g)	Has the government (in collaboration, where appropriate, with national and international organizations) delegated planning and management responsibilities to the lowest level of public authority consistent with effective action?	Women		
	Have the advantages of effective and equitable opportunities for participation by women been discussed?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.5 (h)	Has the government (in collaboration, where appropriate, with national and international organizations) established procedures for involving local communities in contingency planning for environmental and industrial accidents and maintaining an open exchange of information on local hazards?			
	Have instruments been regularly reviewed and adapted to ensure that they continue to be effective?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
1.2 Providing an effective legal and regulatory framework				
1.2.1 Activities				

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

1.2.1.1 Making laws and regulations more effective				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.17	<p>Has the government (in collaboration, where appropriate, with national and relevant international organizations) regularly assessed the laws and regulations enacted and the related institutional/administrative machinery established at the national/state and local/municipal levels in the field of environment and sustainable development, with a view to rendering them effective in practice?</p> <p>Have programs included the promotion of public awareness, preparation and distribution of guidance material, and specialized training, including workshops, seminars, education programmes and conferences, for public officials who design, implement, monitor and enforce laws and regulations?</p>			
	<p>1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured?</p> <p>2.) If not: Why not?</p>			

2. Stakeholders: Governments, in cooperation, where appropriate, with international organizations

2.1 Integrating environment and development at the policy, planning and management levels				
2.1.1 Activities				
2.1.1.1 Adopting a national strategy for sustainable development				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.7	<p>Has the government (in collaboration, where appropriate, with national and international organizations) adopted a national strategy for sustainable development based on, <i>inter alia</i>, the implementation of decisions taken at the Conference, particularly in respect of Agenda 21?</p> <p>Has this strategy built upon and harmonized the various sectoral economic, social and environmental policies and plans that are operating in the country?</p> <p>Has the experience gained through existing planning exercises such as national reports for the Conferences, national conservation strategies and environment action plans been fully used and incorporated into a country-driven sustainable development strategy?</p> <p>Are the goals of this strategy to ensure socially responsible economic development while protecting the resource base and the environment for the benefit of future generations?</p> <p>Has the strategy been based on a thorough assessment of the current situation and initiatives and has it been developed through the widest possible participation?</p>			
	<p>1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured?</p> <p>2.) If not: Why not?</p>			
2.1.2 Means of implementation				
2.1.2.1 Strengthening national institutional capacity				
Source	Recommendation	Target Group	Target Date	Reference

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

Agenda 21 Art 8.12	Has the government (in collaboration, where appropriate, with national and international organizations) strengthened national institutional capability and capacity to integrate social, economic, developmental, and environmental issues at all levels of development decision-making and implementation?			
	Has attention been paid to moving away from narrow sectoral approaches and progressing towards full cross-sectoral coordination and cooperation?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			

3. Stakeholders: Governments, in collaboration with the national and international scientific community and in cooperation with international organizations

3.1 Integrating environment and development at the policy, planning and management levels				
3.1.1 Means of implementation				
3.1.1.1 Researching environment and development interactions				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.9	Has the government (in collaboration with the national and international scientific community and in cooperation with international organizations, as appropriate) clarified the interactions between and within social, economic and environmental considerations?			
	Has research been undertaken with the explicit objective of assisting policy decisions and providing recommendations on improving management practices?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			

4. Stakeholders: Governments, in cooperation, where appropriate, with national, regional or international organizations

4.1 Integrating environment and development at the policy, planning and management levels				
4.1.1 Means of Implementation				
4.1.1.1 Enhancing education and training				
Source	Recommendation	Target Group	Target Date	Reference

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

Agenda 21 Art 8.10	<p>Has the government (in cooperation, where appropriate, with national, regional or international organizations) ensured that essential human resources exist, or are developed, to undertake the integration of environment and development at various stages of the decision-making and implementation process?</p> <p>Has the government (in cooperation, where appropriate, with national, regional or international organizations) improved education and technical training, particularly for women and girls, by including interdisciplinary approaches, as appropriate, in technical, vocational, university and other curricula?</p> <p>Has the government (in cooperation, where appropriate, with national, regional or international organizations) undertaken systematic training of government personnel, planners and managers on a regular basis, giving priority to the requisite integrative approaches and planning and management techniques that are suited to country-specific conditions?</p>	Women, girls, and government employees		
	<p>1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured?</p> <p>2.) If not: Why not?</p>			

5. Stakeholders: Governments, in cooperation with national institutions and groups, the media and the international community

5.1 Integrating environment and development at the policy, planning and management levels

5.1.1 Means of Implementation

5.1.1.1 Promoting public awareness

Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.11	<p>Has the government, in cooperation with national institutions and groups, the media and the international community, promoted awareness in the public at large, as well as in specialized circles, of the importance of considering environment and development in an integrated manner, and established mechanisms for facilitating a direct exchange of information and views with the public?</p> <p>Has priority been given to highlighting the responsibilities and potential contributions of different social groups?</p>	Different social groups		
	<p>1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured?</p> <p>2.) If not: Why not?</p>			

6. Stakeholders: Governments and legislators

6.1 Providing an effective legal and regulatory framework

6.1.1 Activities

6.1.1.1 Establishing judicial and administrative procedures

Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.18	Has the government and legislators established judicial and administrative procedures for legal redress and remedy of actions affecting environment and development that may be unlawful or infringe on rights under the law and have you provided access to the individuals, groups and organizations with a recognized legal interest?	Individuals, groups and organizations		

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?	
--	---	--

7. Stakeholders: Competent intergovernmental and non-governmental organizations

7.1 Providing an effective legal and regulatory framework				
7.1.1 Activities				
7.1.1.1 Providing legal reference and support services				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.19	<p>Have competent intergovernmental (IGO's) and non-governmental organizations (NGO's) cooperated to provide governments and legislators, upon request, with an integrated programme of environment and development law (sustainable development law) services, carefully adapted to the specific requirements of the recipient legal and administrative systems?</p> <p>Have such systems included assistance in the preparation of comprehensive inventories and review of national legal systems?</p> <p>Have competent intergovernmental (IGO's) and non-governmental organizations (NGO's) combined specialized legal information services with legal expert advice?</p>			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			

8. Stakeholders: Competent international and academic institutions

8.1 Providing an effective legal and regulatory framework				
8.1.1 Activities				
8.1.1.1 Establishing judicial and administrative procedures				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.20	<p>Have competent international and academic institutions, within agreed frameworks, cooperated to provide, especially for trainees in developing countries, post-graduate programs and in-service training facilities in environment and development law?</p> <p>Has the training addressed both the effective application and the progressive improvement of applicable laws, the related skills of negotiating, drafting and mediation, and the training of trainers?</p>	Trainers, especially in developing countries		
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

9. Stakeholders: Governments with assistance from international organizations and other countries

9.1 Providing an effective legal and regulatory framework

9.1.1 Activities

9.1.1.1 Developing effective national programmes for reviewing and enforcing compliance with national, state, provincial and local laws on environment and development

Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.21 (a)	Has the government (with assistance from international organizations and other governments) developed integrated strategies to maximize compliance with its laws and regulations relating to sustainable development, including enforceable, effective laws, regulations and standards that are based on sound economic, social and environmental principles and appropriate risk assessment, incorporating sanctions designed to punish violations, obtain redress and deter future violations been made? 1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Agenda 21 Art 8.21 (b)	Has the government (with assistance from international organizations and other governments) developed integrated strategies to maximize compliance with its laws and regulations relating to sustainable development, including mechanisms for promoting compliance been created? 1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Agenda 21 Art 8.21 (c)	Has the government (with assistance from international organizations and other governments) developed integrated strategies to maximize compliance with its laws and regulations relating to sustainable development, including institutional capacity for collecting compliance data, regularly reviewing compliance, detecting violations, establishing enforcement priorities, undertaking effective enforcement, and conducting periodic evaluations of the effectiveness of compliance and enforcement programs? 1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
Agenda 21 Art. 8.21 (d)	Has the government (with assistance from international organizations and other governments) developed integrated strategies to maximize compliance with its laws and regulations relating to sustainable development, including mechanisms for appropriate involvement of individuals and groups in the development and enforcement of laws and regulations on environment and development? 1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			

Commitments to Integrating Environment and Development in Decision-Making

Agenda 21: Chapter 8 and UN Commission on Sustainable Development

10. Stakeholders: Contracting parties to international agreements, in consultation with the appropriate secretariats of relevant international conventions

10.1 Providing an effective legal and regulatory framework				
10.1.1 Activities				
10.1.1.1 National monitoring of legal follow-up to international instruments				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.22	Have contracting parties to international agreements, in consultation with the appropriate secretariats of relevant international conventions as appropriate, improved practices and procedures for collecting information on legal and regulatory measures taken?	Governments		
	Have contracting parties to international agreements undertaken sample surveys of domestic follow-up action subject to agreement by sovereign States concerned?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			

11. Stakeholders: Governments

11.1 Providing an effective legal and regulatory framework				
11.1.1 Means of implementation				
11.1.1.1 Scientific and technological means				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.24	Has the government encouraged closer cooperation between existing databases, which is expected to lead to better division of labour [e.f., in geographical coverage of national legislative gazettes and other reference and sources]?			
	Has the government improved standardization and compatibility of data, as appropriate?			
	1.) If yes: a.) How and When? b.) What was the impact? c.) How was it measured? 2.) If not: Why not?			
11.1.1.2 Human resource development				
Source	Recommendation	Target Group	Target Date	Reference
Agenda 21 Art 8.25	Has the government supported participation in training for providing an effective legal and regulatory network, especially by practitioners from developing countries, and enhanced training opportunities for women?	Developing countries and women
